Introducing YOA Insurance Brokers

YOA Insurance Brokers is the first ISO 9001:2015 certified professional brokerage company in Nigeria, with over two decades of experience in risk management, advisory, and insurance placement across various sectors.

Since our establishment in 2002, we have provided expert guidance on managing risks and unforeseen events, ensuring cost-effective solutions for our clients. Originally formed to meet the growing need for Nigerian expertise in oil and gas insurance broking, we have since expanded our capabilities across multiple industries, handling some of Nigeria's most complex insurance transactions.

More than 60 people with supported systems and processes that work

YOA is home to over 60 passionate professionals who value expertise, collaboration, and innovation. Our teams work together to improve both our clients' businesses and our own. Headquartered in Lagos, we also have offices in Port Harcourt and Abuja.

Reinventing insurance and reinsurances broking in Nigeria

Many of Nigeria's top companies trust us to help them manage their risk. We are more than brokers in insurance and reinsurance, we are also well-respected partners for risk advisory services.

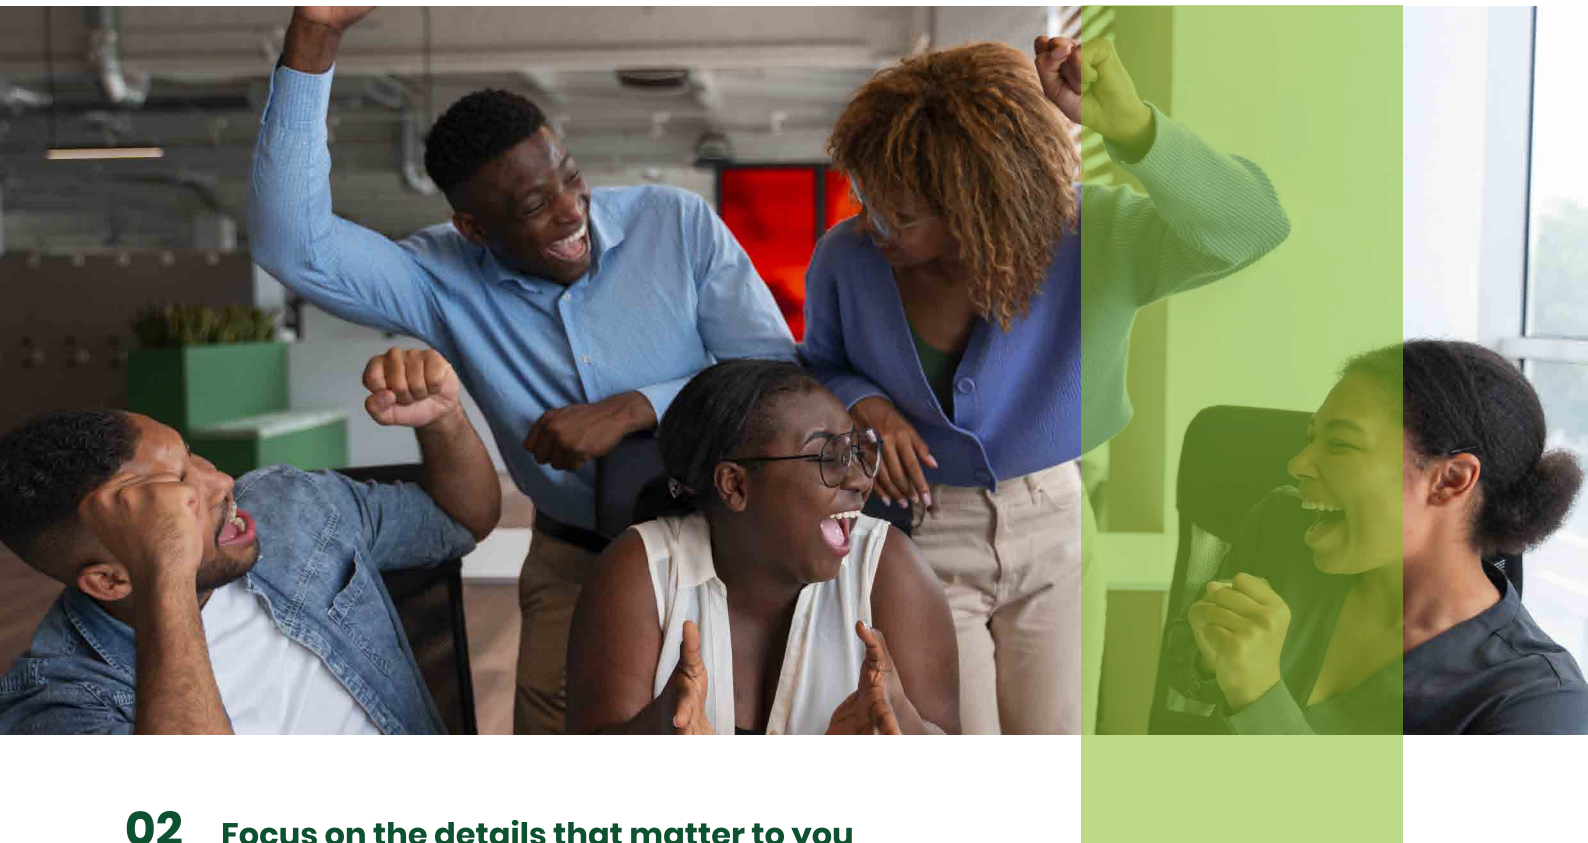

We put our clients' needs first

We do not believe in a one-size-fits-all approach. Every engagement begins with a deep dive into our client's business to understand their operations and insurance needs. From there, we work together to tailor the right coverage at the right cost.
